## LANGUAGES

- Python
- Java, JavaScript
- C, C++

## SKILLS

- Backend : Node.js
- Frontend : HTML, CSS, Bootstrap
- ML Development

## PROJECTS

### Smart Irrigation System using Arduino Uno

- The project would use a moisture sensor to check amount of moisture in soil.
- If moisture is less, it would use an ultrasonic sensor to check water level in reservoir.
- If water level is adequate, D.C. Motor is used to pump out water.

### Calculator

Made using Swing in Java.

### Hangman Game

- Made using Python.
- Included actual hangman figure using ASCII Art.

## EDUCATION

### D.J. Sanghvi College of Engineering

2022 - 2026

- Semester 1: 9.71
- Semester 2: 9.38

### R.R. International College

2020 - 2022

- HSC : 85%
- JEE Mains: 97.3%
- MHT CET: 99.3%

### Thakur International School

2010-2020

- ICSE: 97.4%
